# World Smart City Expo

Korea, 2024

**WSCE** WORLD  
SMART CITY  
EXPO-KOREA

Since 2017, the WSCE has provided the pioneering platform for smart city development in Asia Pacific and beyond. Participants gathered to show their latest smart solutions and services, share the national smart city development plans and experiences, and discuss cooperation and project partnerships in response to the urban challenges ahead like climate resilience and digital transition.

Held under the theme of "Better life is here," the 8th edition of the WSCE due this September will feature a comprehensive program, including the opening ceremony, conferences, business meetings, award ceremony, and networking events, along with the smart city exhibition throughout the expo period. You can also experience new technologies and mobility services being introduced to improve our living in smart cities.

We kindly request your active participation and support for the WSCE.
